

NEW JERSEY DEPARTMENT OF TRANSPORTATION

MEMORANDUM

TO: All Personnel Concerned

FROM: Charles Takacs
Chief, Bureau of Roadway
Plans and Specifications

Sawing Joints in Base
SUBJECT: Course and/or Bottom Layer DATE: 05-16-89 TELEPHONE: 5-2574

Reference: Memorandum to All Design Units, Sawing and Sealing Joints
in Bituminous Concrete Overlay, May 15, 1989

Prior to advertising a project which provides for a bituminous concrete overlay of a concrete pavement, the specification engineer shall review the project's construction schedule to determine if there actually will be seasonal limitations requiring the item Sawing Joints in Base Course and/or Bottom Layer. If there will be no seasonal limitations, the section in the specification relating to this and the corresponding pay item shall be deleted.

When the item is required, the estimated quantity shall be reviewed and adjusted as required.
